Submarine Cables - ALBA-1

The properties of ALBA-1 submarine cable is presented in Table 1.

Table 1: ALBA-1 Submarine Cable Properties

Header	Description
Name	ALBA-1
Status	Active
Length	1,860 km
Ready for Service	2012 August
Owners	Telecom Venezuela, Transbit
Suppliers	ASN

ALBA-1's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Ocho Rios, Jamaica

List of International Landing Points

1. Santiago de Cuba, Cuba
2. Siboney, Cuba
3. La Guaira, Venezuela

The ALBA-1 submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Americas-II

The properties of Americas-II submarine cable is presented in Table 1.

Table 1: Americas-II Submarine Cable Properties

Header	Description
Name	Americas-II
Status	Active
Length	8,373 km
Ready for Service	2000 August
Owners	AT&T, Altice Portugal, C&W Networks, CANTV, Corporacion Nacional de Telecomunicaciones (CNT), Embratel, Lumen, Orange, T-Mobile, Tata Communications, Telecom Italia Sparkle, Verizon
Suppliers	Subcom

Americas-II's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Port of Spain, Trinidad and Tobago

List of International Landing Points

1. Hollywood, FL, United States
2. Willemstad, Curaçao
3. Camuri, Venezuela
4. Miramar, PR, United States
5. St. Croix, VI, United States
6. Le Lamentin, Martinique
7. Cayenne, French Guiana
8. Fortaleza, Brazil

The Americas-II submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - ARCOS

The properties of ARCOS submarine cable is presented in Table 1.

Table 1: ARCOS Submarine Cable Properties

Header	Description
Name	ARCOS
Status	Active
Length	8,600 km
Ready for Service	2001 December
Owners	AT&T, Alestra, Bahamas Telecommunications Company, Belize Telemedia, C&W Networks, CANTV, Claro Dominicana (Codetel), Enitel, Hondutel, Instituto Costarricense de Electricidad, Internexa, Orbinet Overseas, RACSA, Telecomunicaciones Ultramarinas de Puerto Rico, Telepuerto San Isidro, Tigo Colombia, Tricom USA, United Telecommunication Services (UTS), Verizon
Suppliers	Subcom

ARCOS's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Belize City, Belize
2. Nassau, Bahamas
3. Cat Island, Bahamas
4. Crooked Island, Bahamas
5. Providenciales, Turks and Caicos Islands

List of International Landing Points

1. Puerto Barrios, Guatemala
2. Puerto Cortes, Honduras
3. Tulum, Mexico
4. Cancún, Mexico
5. Trujillo, Honduras
6. Puerto Lempira, Honduras
7. Bluefields, Nicaragua
8. Puerto Cabezas, Nicaragua

9. Puerto Limon, Costa Rica
10. North Miami Beach, FL, United States
11. Maria Chiquita, Panama
12. Cartagena, Colombia
13. Riohacha, Colombia
14. Puerto Plata, Dominican Republic
15. Punto Fijo, Venezuela
16. Willemstad, Curaçao
17. Punta Cana, Dominican Republic
18. Isla Verde, PR, United States

The ARCOS submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - AURORA Cable System

The properties of AURORA Cable System submarine cable is presented in Table 1.

Table 1: AURORA Cable System Submarine Cable Properties

Header	Description
Name	AURORA Cable System
Status	Planned
Length	5,500 km
Ready for Service	2023 Q1
Owners	FP Telecommunications
Suppliers	ASN

AURORA Cable System's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. George Town, Cayman Islands

List of International Landing Points

1. Puerto Barrios, Guatemala
2. Puerto Cortes, Honduras
3. Cancún, Mexico
4. Sarasota, FL, United States
5. Manta, Ecuador
6. Maria Chiquita, Panama
7. Balboa, Panama
8. Cartagena, Colombia

The AURORA Cable System submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Bahamas 2

The properties of Bahamas 2 submarine cable is presented in Table 1.

Table 1: Bahamas 2 Submarine Cable Properties

Header	Description
Name	Bahamas 2
Status	Active
Length	470 km
Ready for Service	1997 June
Owners	AT&T, Telefonica, Verizon
Suppliers	Subcom

Bahamas 2's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Eight-Mile Rock, Bahamas
2. Nassau, Bahamas

List of International Landing Points

1. Vero Beach, FL, United States

The Bahamas 2 submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Bahamas Domestic Submarine Network (BDSNi)

The properties of Bahamas Domestic Submarine Network (BDSNi) submarine cable is presented in Table 1.

Table 1: Bahamas Domestic Submarine Network (BDSNi) Submarine Cable Properties

Header	Description
Name	Bahamas Domestic Submarine Network (BDSNi)
Status	Active
Length	2,817 km
Ready for Service	2006
Owners	Bahamas Telecommunications Company, Teleco
Suppliers	Subcom

Bahamas Domestic Submarine Network (BDSNi)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Hawksbill, Bahamas
2. Fresh Creek, Bahamas
3. Sandy Point, Bahamas
4. Nassau, Bahamas
5. Rock Sound, Bahamas
6. Governors Harbor, Bahamas
7. George Town, Bahamas
8. Duncan Town, Bahamas
9. Cat Island, Bahamas
10. Clarence Town, Bahamas
11. Port Nelson, Bahamas
12. Cockburn Town, Bahamas
13. Matthew Town, Bahamas
14. Mayaguana, Bahamas
15. Port-au-Prince, Haiti

The Bahamas Domestic Submarine Network (BDSNi) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Bahamas Internet Cable System (BICS)

The properties of Bahamas Internet Cable System (BICS) submarine cable is presented in Table 1.

Table 1: Bahamas Internet Cable System (BICS) Submarine Cable Properties

Header	Description
Name	Bahamas Internet Cable System (BICS)
Status	Active
Length	1,100 km
Ready for Service	2001 July
Owners	Caribbean Crossings
Suppliers	nan

Bahamas Internet Cable System (BICS)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Hawksbill, Bahamas
2. Riding Point, Bahamas
3. Crown Haven, Bahamas
4. Caves Point, Bahamas
5. Sandy Point, Bahamas
6. Current, Bahamas

List of International Landing Points

1. Boca Raton, FL, United States
2. Spanish River Park, FL, United States

The Bahamas Internet Cable System (BICS) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Caribbean-Bermuda U.S. (CBUS)

The properties of Caribbean-Bermuda U.S. (CBUS) submarine cable is presented in Table 1.

Table 1: Caribbean-Bermuda U.S. (CBUS) Submarine Cable Properties

Header	Description
Name	Caribbean-Bermuda U.S. (CBUS)
Status	Active
Length	1,600 km
Ready for Service	2009 October
Owners	C&W Networks
Suppliers	nan

Caribbean-Bermuda U.S. (CBUS)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. St. David's, Bermuda
2. Tortola, Virgin Islands (U.K.)

The Caribbean-Bermuda U.S. (CBUS) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Caribbean Regional Communications Infrastructure Program (CARCIP)

The properties of Caribbean Regional Communications Infrastructure Program (CARCIP) submarine cable is presented in Table 1.

Table 1: Caribbean Regional Communications Infrastructure Program (CARCIP) Submarine Cable Properties

Header	Description
Name	Caribbean Regional Communications Infrastructure Program (CARCIP)
Status	Active
Length	225 km
Ready for Service	2019 June
Owners	Digicel
Suppliers	nan

Caribbean Regional Communications Infrastructure Program (CARCIP)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Conference, Grenada
2. Carriacou, Grenada
3. Union Island, Saint Vincent and the Grenadines
4. Canouan, Saint Vincent and the Grenadines
5. Bequia, Saint Vincent and the Grenadines
6. Chateaubelair, Saint Vincent and the Grenadines
7. Kingstown, Saint Vincent and the Grenadines
8. Mustique, Saint Vincent and the Grenadines
9. Owia, Saint Vincent and the Grenadines

The Caribbean Regional Communications Infrastructure Program (CARCIP) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Cayman-Jamaica Fiber System (CJFS)

The properties of Cayman-Jamaica Fiber System (CJFS) submarine cable is presented in Table 1.

Table 1: Cayman-Jamaica Fiber System (CJFS) Submarine Cable Properties

Header	Description
Name	Cayman-Jamaica Fiber System (CJFS)
Status	Active
Length	870 km
Ready for Service	1997 June
Owners	C&W Networks
Suppliers	ASN

Cayman-Jamaica Fiber System (CJFS)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Half Moon Bay, Cayman Islands
2. Cayman Brac, Cayman Islands
3. Montego Bay, Jamaica
4. Ocho Rios, Jamaica
5. Bull Bay, Jamaica
6. Port Antonio, Jamaica

The Cayman-Jamaica Fiber System (CJFS) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Status	Active
Length	6,000 km
Ready for Service	2015 September
Owners	C&W Networks, Setar, Telconet, Telxius, United Telecommunication Services (UTS)
Suppliers	ASN

Pacific Caribbean Cable System (PCCS)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Tortola, Virgin Islands (U.K.)

List of International Landing Points

1. Jacksonville, FL, United States
2. Manta, Ecuador
3. Maria Chiquita, Panama
4. Balboa, Panama
5. Cartagena, Colombia
6. Hudishibana, Aruba
7. Mahuma, Curaçao
8. San Juan, PR, United States

The Pacific Caribbean Cable System (PCCS) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Saba, Statia Cable System (SSCS)

The properties of Saba, Statia Cable System (SSCS) submarine cable is presented in Table 1.

Table 1: Saba, Statia Cable System (SSCS) Submarine Cable Properties

Header	Description
Name	Saba, Statia Cable System (SSCS)
Status	Active
Length	198 km
Ready for Service	2013
Owners	Government of the Netherlands
Suppliers	nan

Saba, Statia Cable System (SSCS)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Basseterre, Saint Kitts and Nevis

List of International Landing Points

1. Great Level Bay, Bonaire, Sint Eustatius and Saba
2. Great Bay Beach, Saint Martin
3. Gallows Bay, Bonaire, Sint Eustatius and Saba
4. Gustavia, Saint Barthélemy

The Saba, Statia Cable System (SSCS) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Southern Caribbean Fiber

The properties of Southern Caribbean Fiber submarine cable is presented in Table 1.

Table 1: Southern Caribbean Fiber Submarine Cable Properties

Header	Description
Name	Southern Caribbean Fiber
Status	Active
Length	3,000 km
Ready for Service	2006 September
Owners	Digicel
Suppliers	ASN, Subcom

Southern Caribbean Fiber's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Basseterre, Saint Kitts and Nevis
2. Bunkum Bay, Montserrat
3. Dickenson Bay, Antigua and Barbuda
4. Point Salines, Grenada
5. Chaguaramas, Trinidad and Tobago
6. Canefield, Dominica
7. Kingstown, Saint Vincent and the Grenadines
8. Rodney Bay, Saint Lucia
9. Needham's Point, Barbados

List of International Landing Points

1. San Juan, PR, United States
2. St. Croix, VI, United States
3. St. Louis, Saint Martin
4. Gustavia, Saint Barthélemy
5. Baillif, Guadeloupe
6. Baie-Mahault, Guadeloupe
7. Le Lamentin, Martinique

The Southern Caribbean Fiber submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Strategic Evolution Underwater Link (SEUL)

The properties of Strategic Evolution Underwater Link (SEUL) submarine cable is presented in Table 1.

Table 1: Strategic Evolution Underwater Link (SEUL) Submarine Cable Properties

Header	Description
Name	Strategic Evolution Underwater Link (SEUL)
Status	Active
Length	24 km
Ready for Service	2017 July
Owners	Belize Telemedia
Suppliers	HMN Tech

Strategic Evolution Underwater Link (SEUL)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Bomba, Belize
2. San Pedro, Belize

The Strategic Evolution Underwater Link (SEUL) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - Suriname-Guyana Submarine Cable System (SG-SCS)

The properties of Suriname-Guyana Submarine Cable System (SG-SCS) submarine cable is presented in Table 1.

Table 1: Suriname-Guyana Submarine Cable System (SG-SCS) Submarine Cable Properties

Header	Description
Name	Suriname-Guyana Submarine Cable System (SG-SCS)
Status	Active
Length	1,249 km
Ready for Service	2010 July
Owners	Guyana Telephone and Telegraph (GT&T), Telesur
Suppliers	HMN Tech

Suriname-Guyana Submarine Cable System (SG-SCS)'s landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Chaguaramas, Trinidad and Tobago
2. Georgetown, Guyana
3. Totness, Suriname

The Suriname-Guyana Submarine Cable System (SG-SCS) submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - TT-1

The properties of TT-1 submarine cable is presented in Table 1.

Table 1: TT-1 Submarine Cable Properties

Header	Description
Name	TT-1
Status	Active
Length	48 km
Ready for Service	2012 August
Owners	Alliance Telecommunications, C&W Networks, TSTT
Suppliers	nan

TT-1's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Toco, Trinidad and Tobago
2. Pigeon Point, Trinidad and Tobago

The TT-1 submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.

Submarine Cables - X-Link Submarine Cable

The properties of X-Link Submarine Cable submarine cable is presented in Table 1.

Table 1: X-Link Submarine Cable Submarine Cable Properties

Header	Description
Name	X-Link Submarine Cable
Status	Active
Length	775 km
Ready for Service	2019 December
Owners	E-Networks Inc.
Suppliers	nan

X-Link Submarine Cable's landing points can be classified into two groups:

1. Caribbean landing points
2. International landing points

Caribbean landing points are landing points associated with CARICOM member states and associate members. International landing points are all other landing points not associated with CARICOM member states and associate members.

Note: Not all countries may have international landing points.

List of Caribbean Landing Points

1. Point Salines, Grenada
2. Pegwell, Barbados
3. Georgetown, Guyana
4. Totness, Suriname

The X-Link Submarine Cable submarine cable is shown in the following map. The Caribbean landing points and international landing points mentioned above are displayed from left to right using red and blue markers respectively.
