NA

Population

11,198,240 (July 2021 est.)

note: estimates for this country explicitly take into account the effects of excess mortality due to AIDS; this can result in lower life expectancy, higher infant mortality, higher death rates, lower population growth rates, and changes in the distribution of population by age and sex than would otherwise be expected

Population Density

Average Density: 564.0 people/sq. km

Maximum Density: 70117.8 people/sq. km

Minimum Density: 0.4 people/sq. km

The following figure displays the population density over Haiti.

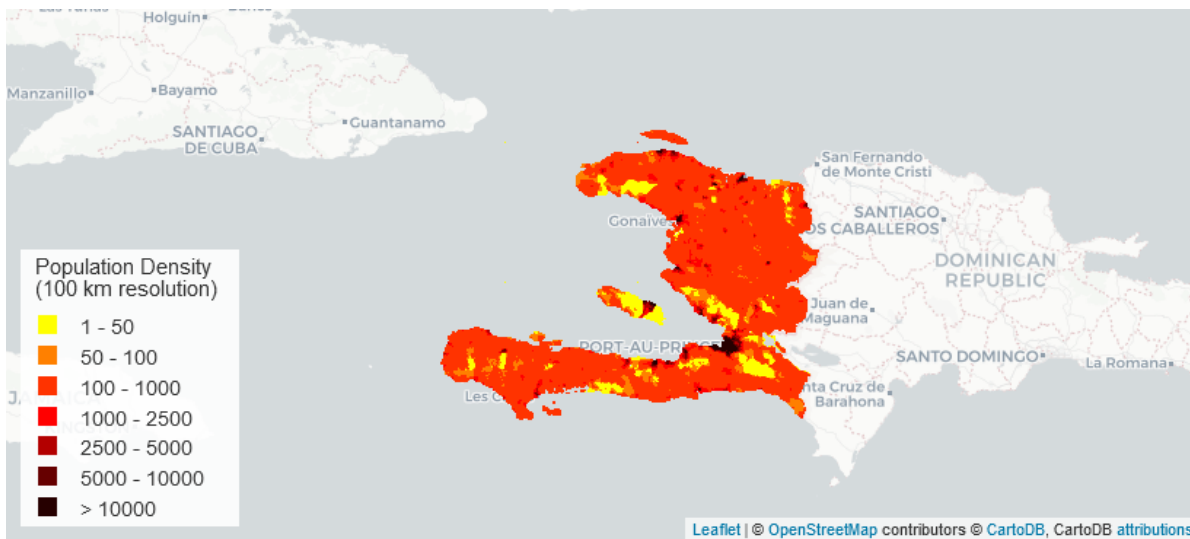

Figure 1a: Population Density in Haiti

Urbanization

urban population: 58% of total population (2021)

Electricity Access

electrification - total population: 39% (2019)

electrification - urban areas: 60% (2019)

electrification - rural areas: 12% (2019)

Labour Force

4.594 million (2014 est.)

note: shortage of skilled labor; unskilled labor abundant

Labour Force - By Occupation

agriculture: 38.1%

industry: 11.5%

services: 50.4% (2010)

Unemployment Rate

40.6% (2010 est.)

note: widespread unemployment and underemployment; more than two-thirds of the labor force do not have formal jobs

Population Below Poverty Line

58.5% (2012 est.)

Literacy

definition: age 15 and over can read and write

total population: 61.7%

male: 65.3%

female: 58.3% (2016)
